Committee _____
Date September 3, 1974

WHEREAS, The Current Sauce, Northwestern State University's student newspaper, is currently operating with a deficit, and this debt occurred before any of the current staff members attained their positions, and

WHEREAS, the newspaper over the past five years has contributed over \$4,000 to the Student Body Association's Speaker Series, thereby enabling the series to increase its service to the students and the Student Body Association, and

WHEREAS, general operating costs are up greatly, including printing costs, scholarships, postage, and other related expenses, and the newspaper is not able to lower the deficit because of these increased costs, and

WHEREAS, the Current Sauce is in constant threat of being discontinued because of this debt, since it is normally not permissible to operate an agency account at a deficit, and

WHEREAS, the Student Body Association needs the newspaper to use for publicizing proposals to be placed before the student body in referendums and also for the publishing of the weekly minutes, and

WHEREAS, it is impossible to produce a newspaper of university quality while attempting to show a great profit, which is necessary to try to lower the debt, therefore

BE IT RESOLVED that the Student Body Association grant to Agency Fund for the Current Sauce, student newspaper of Northwestern State University, the amount of \$3,000 to be used to repay the newspaper for its monetary assistance in the SBA Speaker Series.
